

At this time, we are open for **PATIO DINING & TAKEOUT.**

Here at Royal Jasmine, we hope you are staying safe, healthy and mindful to exercise COVID-19 precautions. Although Arizona is beginning to relax restrictions on restaurant dine-in service, we feel it's best for us to take additional time to prepare our operations to assure the health and safety of our staffs and customers.

First and foremost, Royal Jasmine cares for the well-being of its staffs, customers, and their families at all times, including during this challenging period in our nation's history. Globally, Coronavirus (COVID-19) has been categorized as a significant risk to the general public. In light of the emerging situation, Royal Jasmine is and will remain committed, as you are, to help stop the spread of COVID-19.

As of now, service will be limited to Patio dining and Takeout only. We encourage every customer to wear mask when pick-up your order, practice social distancing and minimize in person contact by using online ordering through our website www.royaljasmineaz.com, and Toast Takeout mobile app.

All Royal Jasmine's team members will continue to take additional steps to clean and thoroughly sanitize the restaurants to safeguard the health and safety of our guests and team members. This includes our standard practice of strict cleaning and hygiene-related protocols, disinfecting work areas, equipment and apparel, and not working while sick.

For now, we do not have plans to open Royal Jasmine for dine-in service. Royal Jasmine will continue to serve customers for Patio dining, and Takeout services. Regardless of how customers are served, we remain committed to the development and use of appropriate Health and Safety Measures in all our restaurants. We appreciate your patience and support. Take care and be safe. As always, we're here for you.
